NEW ZEALAND'S FAVOURITE TV

In 2013 New Zealanders chose Samsung as their favourite television for the fifth year in a row.* Leading the world in consumer electronics, Samsung is regarded as one of the world's most innovative companies. With a reputation for excellence and intelligent design, it's no wonder Samsung has been New Zealand's favourite TV brand for five consecutive years.*

WHY SAMSUNG?

OUTSTANDING PICTURE QUALITY

You'll notice the difference in the picture of our 2014 Samsung Televisions. Samsung televisions produce a crystal clear picture with vivid, life-like colour. Thanks to the clever Micro Dimming technology the LED backlight adjusts to enhance brightness and improve contrast to suit whatever you are watching, while Wide Colour Enhancer makes colours pop. If you're after an ultimate entertainment experience for your movies, sport and every day TV, you can't go past the incredible picture of a Samsung LED television.

THE LARGEST SELECTION OF NZ APPS

Love TV? Watch your favourite programmes through the TVNZ OnDemand and 3NOW Apps available exclusively⁸ on Samsung Smart TV. Sports fans can watch English Premier League football matches with Samsung's exclusive Premier League Pass App. Catch up on the latest movies and TV shows with video on demand services from EzyFlix and Quickflix or play your Spotify playlist through your TV or Home Entertainment Speakers. Multiply your entertainment options with a Samsung Smart TV.

FOR KIWI HOMES

Selected Samsung televisions come with a built-in satellite and terrestrial tuner. With a lot of New Zealand homes without terrestrial reception, these Samsung televisions eliminate the need for a set top box to get free-to-air TV channels. Get rid of that extra remote with a Samsung television with built-in Dual Tuner.

THE ONLY TV WITH SMART EVOLUTION

Our top-of-the-range televisions come with Smart Evolution, which essentially means that they can have their features upgraded in subsequent years. Simply add an Evolution Kit⁶ and enjoy a faster experience, updated Smart Hub and other new features to be released in the future.

*Based on 2009, 2010, 2011, 2012, 2013 volume for the total TV market, validated by GfK Retail and Technology. Certain features applicable to selected products. TV interface depicts Apps not necessarily available in New Zealand.

THE WORLD'S FIRST CURVED UHD TV

Surround yourself with the Samsung Ultra High Definition cinematically curved screen. It brings you truly immersive viewing experiences with a greater sense of depth, pure expression of colours and delicate details.

Samsung Curved TVs are available in both Ultra High and Full High Definition.

CURVED FOR ULTIMATE IMMERSION

Designed at an optimal angle for every seat in the room, the Samsung Curved screen TV delivers a viewing experience previously unimaginable, where everything you watch is enhanced by the panoramic curve of the screen.

WATCH EVERYTHING IN UHD¹⁰

Enjoy a clearer picture with whatever you watch through 4 step UHD upscaling¹⁰ which converts lower resolution content to UHD level picture quality, enhancing the details of video images.

VIVID LIFE-LIKE COLOUR

PurColour brings you closer to the colour that nature intended by expressing varying shades and an overall wider spectrum.

DEPTH YOU'LL WANT TO DIVE IN TO

Feel more drawn into a scene as Auto Depth Enhancer applies contrast enhancements to different areas of the image to enhance your perception of depth. Be enveloped in the detail and action of your entertainment.

READY FOR THE FUTURE

You can relax knowing your Samsung UHD TV is ready to meet future connection and broadcast UHD standards. With the addition of a UHD Evolution Kit⁷ you can easily upgrade key features of your UHD TV in subsequent years, making your TV faster and more up to date.

SAMSUNG TELEVISION KEY FEATURES

SMART HUB

Smart Hub¹ is an easy to navigate entertainment hub. From here you can browse the web, interact with Apps³ and share your multi-media from compatible devices such as a tablet and catch up on the latest news headlines.

Certain features applicable to selected products.

CONTROL WITH VOICE AND MOTION

Selected Samsung Smart TVs can be controlled with voice commands and simple hand gestures, all thanks to Smart Interaction².

SAMSUNG SMART CONTROL

Use the remote as a wand to point and control your TV or speak into the built-in microphone to use Voice Control.

MICRO DIMMING

Enjoy a crystal clear, vibrant picture. Micro Dimming optimises the LED backlight to adjust brightness and improve contrast to suit whatever you are watching.

CLEAR MOTION RATE

Watch fast moving images with incredible clarity. CMR is a comprehensive measurement that combines panel refresh rate, image processing speed and backlight scanning - all of which assist in minimising motion blur.

MULTI-LINK DUAL SCREEN

Splits your screen into two different areas that you can interact with. Watch a movie and browse the web simultaneously.

QUAD CORE PROCESSOR

Multi-tasking is a breeze with the fast Quad Core Processor. Switch between content and navigate to menus swiftly.

Quad Core Plus Processor is even faster.

SMART VIEW

Download the Smart View App⁴ onto your compatible mobile device to share whatever is playing on your Samsung TV to your device. All you need is a home Wi-Fi connection.

SCREEN MIRRORING

Mirror what's on your small screen to the big screen of your Samsung TV. Simply open the notification panel of your compatible tablet or smartphone, select the Screen mirroring icon and pair with your Wi-Fi connected TV.

UHD TELEVISIONS

FOUR TIMES THE RESOLUTION OF FULL HD

CURVED UHD

IMMERSE YOURSELF

The world's first Curved UHD TV surrounds your senses with a cinematically curved screen. Through natural expression of colours and deeper image depth, it takes you into a new world of immersive viewing.

HOME AUDIO

ENHANCE YOUR VIEWING AND MUSIC EXPERIENCE WITH SAMSUNG HOME AUDIO SOLUTIONS

SOUNDBAR

The Samsung SoundBar is a modern home entertainment solution, sleekly designed while delivering sublime sound with plenty of bass from the wireless subwoofer. Audio is shared wirelessly from your television or mobile device directly to the speaker for an uncluttered, contemporary look.

HW-H751

SOUNDSTAND

Designed for your television to be placed on top, the Samsung SoundStand contains a subwoofer for outstanding audio accompaniment to your television or music experience. Share sound wirelessly using Bluetooth, for a clean look to your TV cabinet.

HW-H600

WIRELESS AUDIO-MULTIROOM

The Multiroom speaker solution lets you integrate music around how you live. Whether it's a single speaker in one room, or a multi-room system in several rooms, play music from Bluetooth compatible devices where and how you like.

WAM751

HOME ENTERTAINMENT SYSTEM

Bring the cinematic experience to the comfort of your home with Samsung Blu-ray Home Entertainment Systems. Enhance any viewing experience with powerful 3D surround sound sent from sleekly designed speakers. Selected systems have a built in Vacuum Tube for rich, enveloping sound.

For more information on Samsung's Television and Home Audio range visit samsung.com/nz

1. Smart Hub requires internet access and may not be available based on service provider, language, dialect and region. Data and subscription charges may apply. Certain features may not be available without express consent regarding the collection and use of personal information. Certain advertised features, applications and services may not be available on all models and regions and are subject to change without notice. 2. Smart Interaction (Voice Control, Motion Control) performance may vary depending on language, local dialect, pronunciation, voice and ambient noise and light levels, distance and hand motion. Features may not be available in all languages, dialects and regions. Certain features may require firmware upgrades. Internet connection required. Data & Subscription charges may apply. Smart Control (remote) may be required to use Voice Interaction in some compatible Samsung Smart TV models. 3. Certain apps must be purchased and may not be available in all regions. Apps may need to be downloaded. Internet connection required. Data and subscription charges may apply. Usage subject to third party service provider agreements. 4. Smart View application available from Samsung Apps or Google Play. Go to the Samsung Apps & Services Mobile page at www.samsung.com/nz to check Smart View App compatibility with your Samsung mobile or tablet device. Certain functions may require firmware upgrades. Internet connection required to download application. Smart View app does not allow two different free to air programs to be viewed at once. Smart View allows you to view two different sources, for instance RF cable and HDMI input. Compatible mobile devices and Samsung Smart TV must be on same home Wi-Fi network or using Wi-Fi Direct. 5. AllShare (Content Sharing). To share content inside the home, other compatible DLNA products must be connected to the home network via Wi-Fi or Ethernet cable. Some products may require DLNA software to be installed. To store content on the cloud, AllShare may require separate registration with the third-party service provider. Internet connection required. Data and subscription charges may apply. Usage is subject to service provider agreements. AllShare App with cloud storage feature is only available on selected Samsung devices. AllShare Screen Mirroring: To use AllShare Screen Mirroring, the compatible device and the Samsung Smart TV must be in close proximity. 6. Evolution Kit performance may vary depending on year of TV launch, model specifications, application availability and hardware limitations. Evolution Kit, sold separately. Evolution Kit pictured is a representation. Does not reflect actual appearance. 7. UHD Evolution Kit performance may vary depending on year of TV launch, model specifications, application availability and hardware limitations. UHD Evolution Kit, sold separately. UHD Evolution Kit pictured is a representation. Does not reflect actual appearance. Evolution Kit SEK-2500U/XY released in 2014 is compatible with 2013 UHD TVs F9000 and S9. 8. App exclusivity for Samsung Smart TVs refer to television market. Exclusivity correct at time of printing April 2014. 9. Internet connection required. Performance may vary depending on service provider. 10. Upscaling does not convert all content to the same viewing quality as UHD ready content, the quality will vary depending on the source.
